Namma Space: Submission Links & Interactive Prototypes Master Hub

Team CRA003 · Lead Architect: Atharv Namdeo · Affiliation: Indian Institute of Technology

> **COMPLIANCE NOTICE (TECHFEST PAGE 5 SUBMISSION GUIDELINES)**
> "If your team includes additional links, live web demos, prototype access URLs, or supplementary technical documents inside your Google Drive folder, they must be neatly formatted and presented inside a single organized master PDF or Google Doc (e.g., Additional_Links_and_Prototypes.pdf). Loose links or unorganized files inside the Drive folder will not be reviewed by judges. Ensure all folder permissions remain open ('Anyone with the link can view')."

1. LIVE WEB DEMOS & ZERO-INSTALL INTERACTIVE PROTOTYPES

DELIVERABLE PROTOTYPE	LIVE ACCESS URL	KEY FUNCTIONALITY TESTED
Master Submission Portal	**https://atharv-namdeo.github.io/3d-mapping/**	Complete submission hub, side-by-side videos, 3D sensor simulation, pipeline flow.
First-Person 3D Roaming Twin	**https://atharv-namdeo.github.io/3d-mapping/monomap/web/play.html**	Desktop WASD + PointerLock, sprint, jump, crouch, audio footsteps, live 2D floor radar.
10-Model 3D Comparison Studio	**https://atharv-namdeo.github.io/3d-mapping/monomap/web/compare.html**	Keys 1–0 live model switching, telemetry HUD, wireframe & flat shading toggles.
PoseCam Android Scanner APK	**https://atharv-namdeo.github.io/3d-mapping/monomap/web/download.html**	Direct APK download (3.8 MB) with QR code installation for hardware sensor logging.
One-Click Vercel Deploy	**https://vercel.com/new/clone?repository-url=https://github.com/atharv-namdeo/3d-mapping**	Instant one-click edge deployment of the full platform to your Vercel account.

2. OPEN SOURCE SOURCE CODE & DOCUMENTATION REPOSITORIES

REPOSITORY ARTIFACT	URL / ACCESS LOCATION	CONTENTS & SCOPE
Public GitHub Codebase	**https://github.com/atharv-namdeo/3d-mapping**	Full Python neural SLAM engine, Android Kotlin scanner source, Three.js viewers.
Master AI & Team Context	**https://github.com/atharv-namdeo/3d-mapping/blob/main/AI_AND_TEAM_CONTEXT.md**	12-section technical handover covering math derivations, frame matrices, and developer playbook.
Technical Abstract Markdown	**https://github.com/atharv-namdeo/3d-mapping/blob/main/NAMMA_SPACE_TECHNICAL_ABSTRACT.md**	Complete 8-section technical abstract document readable online on GitHub.

3. VIDEO WALKTHROUGH & DEMONSTRATION LINKS

VIDEO ASSET	SPECIFICATIONS	LOCATION / PLAYBACK LINK
Cinematic Technical Film	1280×720, 24 FPS, 10.0s	Hosted on Web Portal (#cinematic) / `assets/videos/concept_pipeline_cinematic.mp4`
Raw Input Smartphone Walkthrough	478×850 Portrait, 30 FPS, 57.4s	Hosted on Web Portal (#verification) / `assets/videos/input_smartphone_walkthrough.mp4`
Output 3D Digital Twin Screen Capture	1918×968 High-Res, 30 FPS, 38.3s	Hosted on Web Portal (#verification) / `assets/videos/output_3d_digital_twin_reconstruction.mp4`
